LAKE TALBOT SWIMMING POOL OFF-SEASON

This off season, projects from the Lake Talbot Swimming Pool Complex Master Plan will come to fruition and push the facility to a whole new level of excitement!

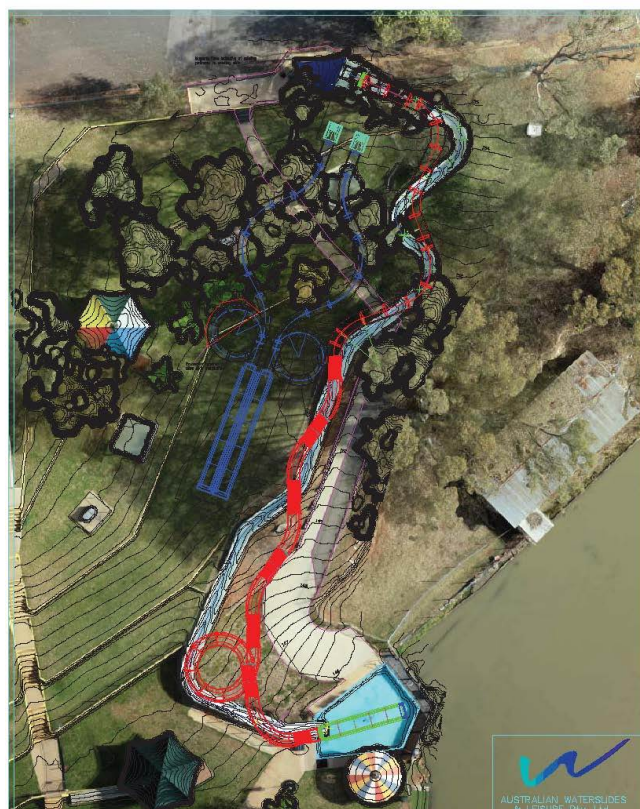

After much debate, Councillors at the March Council meeting accepted the contract for two new slides including a new blue slide and a dual racer slide to be fitted, replacing the old blue slide and rampage slide. The new slides will be adrenaline racing with a new full loop on the blue slide and an enclosed high speed racer slide that allows for two people to enjoy at a time.

The design and construct of the dual racer slide will begin which is ahead of schedule in the Master Plan. As part of the slide replacement program, Council will also remove the rampage slide prior to the commencement of the 2019/20 swimming season.

This off season will also see construction of the new pool level changerooms. The facility will feature two family and universal access changerooms, male and female amenities and a feature screen at the entry point. The construction is set for completion before the 2019-2020 swimming season.

Finally, as part of the Drought Initiative Program, the entry to Lake Talbot Swimming Pool will be revitalised with the landscape design currently underway. The aim is to enhance the entrance and welcome users to the facility.

Council is encouraging residents and visitors to head down to Lake Talbot Swimming Pool and make the most of the rampage slide before the pool closes for this season on Sunday 31 March 2019.
