WATERMAIN REPLACEMENT – BOLTON STREET

Council is preparing to undertake major works to replace the watermains along Bolton Street, between Cadell Street and East Street.

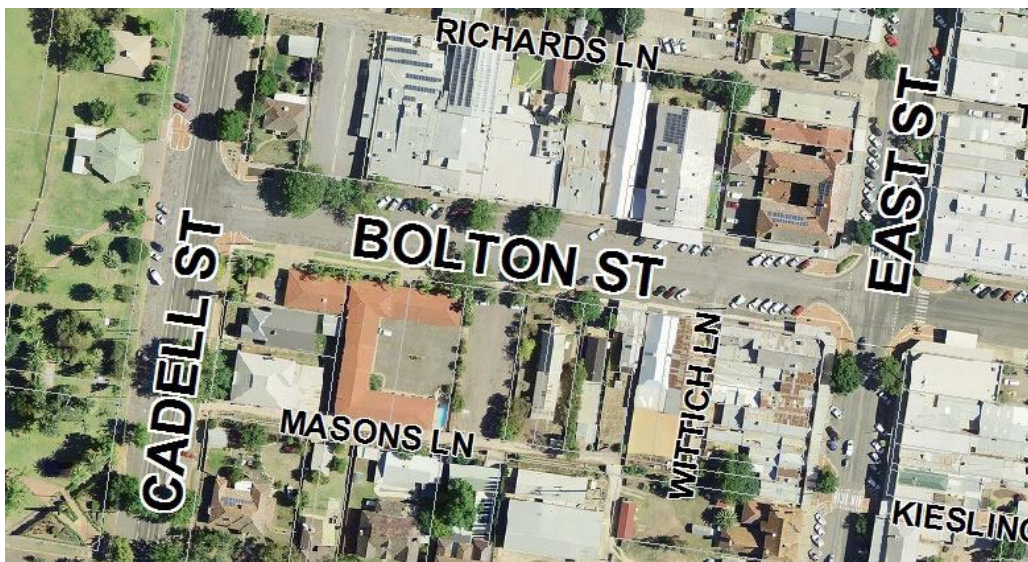

New watermains mean a more reliable water supply for businesses and residents in the area and will create a stronger network of watermains throughout Narrandera.

Works are scheduled to begin Monday 13 May until Friday 31 May 2019, from 7.30am to 4pm daily.

Please be advised there will be some disruption to the water supply for properties in the vicinity. Council will try to minimise the amount of disruption as much as possible.

Traffic control and safety signage will be stationed throughout the worksite and all members of the public are advised to take caution when in the area.

For further information about this project contact Council's Water & Sewer Engineering Officer, Shane Squires on 02 6959 5510.
